

Terms and Conditions

Terms and Conditions describes general information about RxEAL project. Contributor must carefully read Terms and Conditions as well as all other information that is provided by RxEAL. If any of points that are mentioned in this or any other RxEAL document aren't clear, contributor shouldn't take part in token sale.

Information Summary

RxEAL is a platform for trustless and safe security deposit storage on the Ethereum blockchain providing a decentralized dispute resolution with the main focus on real estate and automotive rental markets valued hundreds of billions USD combined. RxEAL will also be available for other industries that demand trustless fund storage and fair dispute resolution.

General

By contributing funds to RxEAL and confirming contribution to RXL tokens contributor understands and accepts that the Funds will eventually be used to contribute the development of the RxEAL project as detailed described in RxEAL whitepaper and related documentation found on RxEAL website. Information contained in Whitepaper, RxEAL website and related documentation are of descriptive nature and are not binding and do not form part of Terms as set forth in text below.

Contributor understands that parties involved in RxEAL will make their best efforts to develop RxEAL project it is possible that development can fail and do to several reasons (see risk paragraph) RXL tokens might become worthless.

Contributor understands and accepts that even if project is successfully developed and launched due to lack of public interest the RxEAL project could be abandoned, remain commercially unsuccessful or be shot down due to interest, regulatory of other reasons. Therefore contributor understands and accepts that contribution of funds; creation and distribution of RXL tokens carry significant financial and regulatory risks.

This document or any materials provided by or related by RxEAL do not constitute a prospectus of any kind, and it is not a solicitation for investment and does not pertain in any way an offering of securities in any jurisdiction. Neither this or any other document nor materials have been (or will be) registered as a prospectus with any government authorities.

Allocation of RXL tokens by contributor from RxEAL shall not form a partnership, joint venture or any similar relationship between contributor and RxEAL and/or any other individuals or entities involved with development of RxEAL.

Knowledge Required

Contributions can be made only by such natural persons or entities that are in possession of broad knowledge, experience and understanding about cryptocurrency markets. If the contributor does not meet such requirements and any of the terms that are mentioned in this whitepaper or any other RxEAL documentation are not clear to them, they should not participate in the token sale. Information that is provided by this whitepaper, RxEAL.com website or any documentation provided by RxEAL is of a descriptive nature and is not legally binding.

Risks

The contributor understands that despite parties involved in the development of the RxEAL project investing their best efforts in order to develop the RxEAL project, it is possible that the project might fail and RXL tokens can become worthless (for further detail please see risk disclaimer in token sale agreement). The contributor also understands that even if the RxEAL project is successfully developed and launched, the project could be dissolved due to lack of public interest, changes in law and legislation or for other reasons. Hence, the contributor understands that the RxEAL project involves significant financial risks and if they are not in the position to accept risks of this level they should not participate in the token sale process.

Token Rights

This and any other document that is provided by RxEAL does not contain any sort of investment recommendation, investment advice or prospectus of any kind. RxEAL token sale is not and will not be securities offering in any jurisdiction. The RXL token is not and will not be any type of security and it will not be subject to any security regulation in any jurisdiction.

Token Functionality

RXL tokens are distributed in order to use the RxEAL platform and not for investment or speculative purposes. The RXL token is a utility token and does not provide any other rights than the rights to use the RxEAL platform. The contributor understands that the RXL token does not supply any kind of income and/or ownership rights or rights to receive any kind of future income and/or ownership rights. The contributor understands that they will not possess any voting rights or governance rights or any rights to influence the development of the RxEAL project in any way. Funds that are raised by RxEAL token sale are final and non-refundable.
